

ActionHydro
pumps, motors and components

Check out our large stock of Kawasaki K3VL pumps

Kawasaki offers an extensive range of axial piston pumps from 28cc until 560cc. These pumps and motors have pressures of 350 bar continuously, and peak pressures of 400 bar intermittent. Kawasaki pumps and motors are available in open-book and closed-book execution.

Since 2015, Action Hydro has subcontracted the logistics of hydraulic components to MH Hydraulics. MH Hydraulics, with their automated warehousing system, guarantees

the **quickest** **delivery** of your order.
Action Hydro partners in hydraulic design:
Custom solutions

Kawasaki hydraulic pumps and motors have been manufactured with the **greatest care and precision** you can rely on.

At Action Hydro, we stock most fast-moving components and spare parts.

Service and **Flexibility:**
You can count on the expertise of the MH CRC (Certified Repair Centre) Network.

"Action Hydro is your partner with the right advice for efficient and reliable drive solutions."

**Check out our large stock
of Kawasaki HMB/HMC
motors**

For more than 60 years the Staffa name has been synonymous with the best in class radial piston hydraulic motors.

The Staffa product range has continued to develop into fixed, variable and high power versions that provide high-torque, low-speed control to a wide range of applications.

We at Action-Hydro have a vast knowledge of how to select the right motor for the right application and we are keeping a large stock of motors at the MH Hydraulics warehouse in The Netherlands.
